Work-Life Balance Without Leaving Your Home at 57Promenade

At 57 Promenade we've designed a space that seamlessly blends work and relaxation, so you don't have to leave home to enjoy the best of both worlds.

Relax and Recharge

Enjoy a good book or take in the stunning Jakarta skyline at our **Skybridge**, located on the **23rd floor**. This open-air space connects our two towers and offers the perfect place to unwind with a beautiful city view.

Work and Play Combined

Above the Skybridge, our **Entertainment Room** features a small meeting room and workstation, perfect for quick tasks or informal meetings. It's a flexible space where you can switch between productivity and relaxation with ease.

Work in Comfort

The Lounge on the **59th floor** is ideal for a more laid-back work environment. Featuring long beach-like chairs and breathtaking city views, it's the perfect spot to sit back, work, and enjoy the scenery.

Need More Space?

For larger meetings or events, our **Function Room** on the **Ground Floor** is fully equipped and ready to host any occasion.
